

Custom Labels Quick Guide

BOH Printer app · print any label you need in seconds

Need a label that isn't in your list? **Custom Labels** lets you type your own text and print it right away. Perfect for quick items, notes, or special preps.

1 Open Custom Label

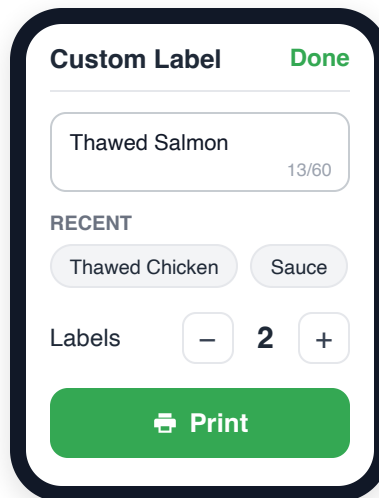

On the **Print** tab, tap the green **Print** tab **again**. The Custom Label window slides up.

Tap the highlighted **Print** tab a second time

2 Type & choose quantity

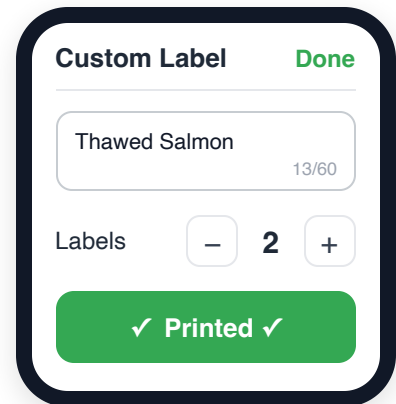

Type your label text (up to 60 characters). Pick how many copies with the minus and plus buttons.

Recent labels reappear as quick chips

3 Print

Tap the green **Print** button. You'll see **Printed** ✓ and the label prints on your Zebra printer.

Text stays put so you can quickly print more

Good to know

- Make sure your printer is connected (Bluetooth) before printing.
- Up to **60 characters** per label and up to **25 copies** at a time.
- Emojis won't print and are removed automatically.

Don't see the Custom Label window? Ask your manager to turn on *Allow custom labels* in Settings.
